Simx Lighting prides itself on selecting only top quality products with reliable components and workmanship. Unique and often ground breaking features with real user benefits rate highly in our selection process.

It is important to Simx to supply reliable, quality lighting products, built to last both electrically and mechanically.

Part of our selection process is in working directly with the manufacturers to redesign product to best suit New Zealand needs. Whether that is by improving raw material selection, functionality, or changes to facilitate easier installation, we ready our products and look for ongoing improvements to ensure your experience with Simx is a positive one.

For consumer peace of mind, Simx provide full warranties, often greater than our manufacturer terms, and all backed with full product compliance.
