

# VENT-AXIA HAND DRYERS

## PUBLIC AREAS/HEAVY USAGE APPLICATIONS

These new dryers have been developed with speed in mind. They provide a rapid drying time of 10-15 seconds, thus reducing washroom time. Tempest offers the user up to 70% energy saving when compared to covers.

The heater elements can be set to between 450W and 900W, enabling the unit to be used in a variety of washroom applications from schools to construction sites.

Another feature is the blue led which provides a visible indication of the drying zone ensuring that the user's hands are always in the warm air stream.

- Suitable for use in public areas for heavy usage.
- Supported by a 5 year warranty.
