

MALIBU IP55 Ceiling Sweep Fans

MALIBU IP55 ceiling fans are designed specifically for outdoor and coastal applications. Incorporating four durable moulded ABS blades and a premium long life motor, this fan is engineered for large area air circulation providing up to 50% more air circulation than timber blade fans. Blades are pre-balanced for smoother, quieter performance and a reversible airflow option for summer or winter is available. Fans are 220-240V AC, 50Hz operated. 6 year warranty.
