CHATEAU

WEATHERPROOF COWL

16% Improved airflow rate over competitor cowls for typical NZ extraction system

Designed For Use In Adverse Weather Conditions

- 

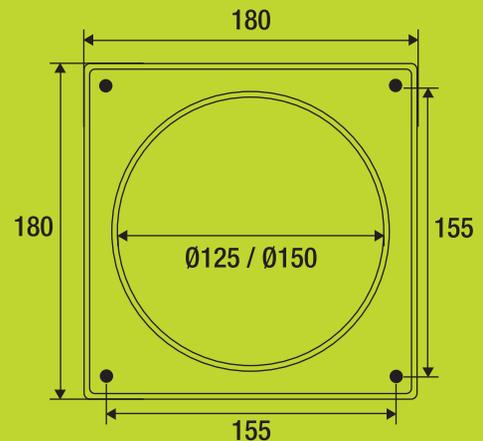

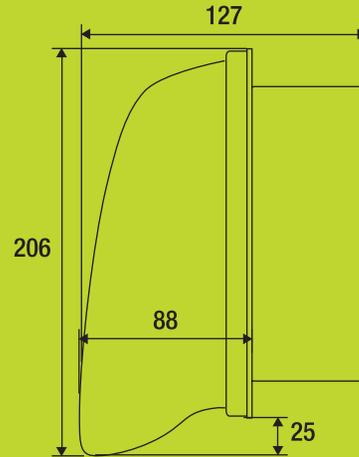

Stays looking new for longer
Breakthrough special formulation for superior UV colour stability and embrittlement resistance.
- 

Sleek, unobtrusive design
Blend into your wall thanks to Chateau's curved design with matte black or white finish.
- 

Get more out of your extraction fan
Quiet monofilm backdraught shutters for aerodynamically superior guided airflow.
- 

Keep pests out
The underside mounted birdmesh and optional insect mesh completely prevents entry into the cowl.
