

SELV TRANSFORMER

12 VAC

Technical Rating Label:

	12/2014	Safety transformer for halogen lamps
		-Thermal and overload protection
		-Soft circuit protection
		-Automatic reset
FAN0436		 5468
  		
  		Pri 230V~50/60Hz ta40°C
	IP43	Sec 11.5V~3.95A Class F

ORDER CODE: FAN0436

- 240VAC to 12VAC Safe Extra Low Voltage (SELV) transformer designed exclusively for low voltage fan applications.
- Unique click-open lid allowing contractors to easily access the terminations, located at one end of unit.
- Extended terminal connectors to provide protection in case the cover is not installed as per instructions.
- Designed to be used with fans up to 50 Watts.
- Fully compliant to AS/NZS 61558.2.6.2009 (EN 61558.2.6:2009, ICE 61558.2:2009).
